There's A Pill to **Prevent HIV?**

PrEP can also reduce the risk of getting HIV from sharing needles and works by more than 70%.

*Sharing needles or works is never recommended.

PrEP or pre-exposure prophylaxis is a **daily pill** that can **reduce the risk** of getting HIV from sex by **more than 90%**.

*Combine with recommended condom use to reduce the risk of HIV even more.

For information about PrEP, referrals to providers, and available financial assistance contact WNCAP at **(828) 252-7489** or email Amanda Wood at amandawood@wncap.org

The **AIDS Memorial Quilt** in Asheville

From **November 26th - December 1st**, portions of the famous **AIDS Memorial Quilt** will be exhibited at the **Asheville Masonic Temple** - 80 Broadway Street in downtown Asheville. This moving and inspirational display was nominated for the Nobel Peace Prize in 1989 and remains the world's largest public art project. **The exhibit is free and open to the public from 10am-7pm.** An **opening reception** will be held on **Tuesday, Nov. 27th** from **6:30-8:30pm**. All are welcome to attend. For more information contact Randy at randy@wncap.org
